

FIND YOUR SIZE

Using the illustrated LINEFINDER Sizefinder and the size chart, it's very easy for you to find out the size that's right for you. All you have to do is cut out the Sizefinder band, put it around your own wrist and measure.

PLEASE NOTE: You should have space to fit the width of one finger between your wrist and the bracelet!

Size	S	M	L
Length	6.8 Inch (17.5 cm)	7.8 Inch (20 cm)	8.7 Inch (22 cm)

IMPORTANT INFORMATION ON HANDLING THE LINEFINDER BRACELETS

Correct size: Please make sure you order your LINEFINDER in the right size, so please use our size chart when you do. It's ideal when you can fit about the space of a finger between the band and your wrist.

Our tip: a bit too wide is better than too tight!

Putting it on and taking it off: Place your fingers into the bracelet and use circular motions or rotate your wrist to carefully pull the bracelet over your hand without exerting any force. To take it off, we recommend applying the same system in the other direction.

Abrasion/friction: Extend the service life of your LINEFINDER by avoiding excessive or frequent friction against clothing or other objects.

Cleaning: Extend the life of your LINEFINDER by cleaning to keep it free of dirt and perspiration. The best way to do this is with soap and water.

Avoid having your bracelet come in contact with solvents such as alcohol and perfume as well as sharp objects!

Printing hint: To print the size Finder band in the correct size, please select in the print settings "actual size", "100%" or "no fit to page" – depending on the designation in the print menu.
